1. Approval of Minutes of September 29,2010 Meeting

The minutes were reviewed and approved as written.

2. Solar Storm

After a presentation by Julie Grenier, regarding the current situation, possible options were discussed, including exclusions, or risk service awareness to accounts with high degrees of electrical equipment such as utilities.

Thanks to the research and information supplied by Julie Grenier, members are more aware of previous events and the

3. Other Business

PCB –

Some further discussions surrounding the PCB issues, and Paul Spence was to continue to pursue the implications of owners not being fully compliant, an the
